## $\ddot{\mathbf{A}}\mathbf{ndringslogg}$

Version 1.0: Skapade dokumentet.

# 1 Versionshantering

https://github.com/joolify/Kalori

## 2 Designmönster

### 2.1 Designmönster

#### 2.1.1 Dependency injection

https://www.youtube.com/watch?v=hnPPItvvNB0

#### 2.1.2 Model View Controller

https://www.youtube.com/watch?v=E7Voso411Vs

#### 2.1.3 Repository Pattern/Service Pattern/Unit Of Work

https://www.youtube.com/watch?v=rtXpYpZdOzM

#### 2.1.4 Unit testing with Nunit

https://www.youtube.com/watch?v=hnPPItvvNB0

## 3 Bibliotek & Ramverk

### 3.0.1 AutoComplete jQuery

https://jqueryui.com/autocomplete/

#### 3.0.2 Bootstrap

https://getbootstrap.com/

#### 3.0.3 CsvHelper

https://joshclose.github.io/CsvHelper/

#### 3.0.4 DataTables

https://datatables.net

#### 3.0.5 Moq

https://github.com/Moq/moq4/wiki/Quickstart

## 4 Klassdiagram

## 4.1 Web Api

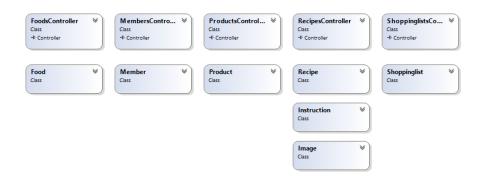

Figur 1:

## 4.2 Web Api - Dto:s

Figur 2:

### 4.3 Controllers & Models

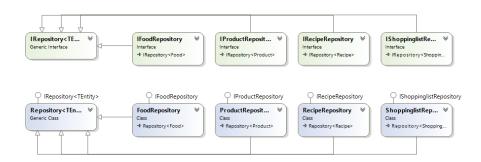

Figur 3:

## 4.4 Web Apin

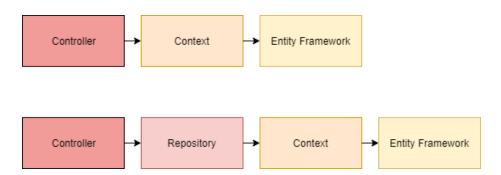

Figur 4:

## 4.5 Repositories

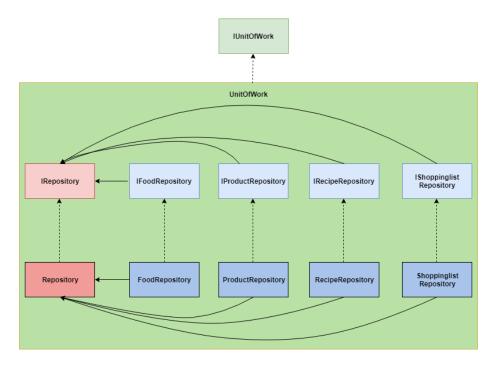

Figur 5:

## 5 Repository design pattern

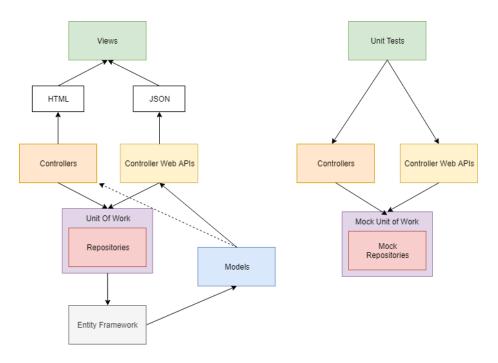

Figur 6: Repository-klassen sätts mellan controller och context

Figur 7: Unit Of Work inkapslar alla repositories

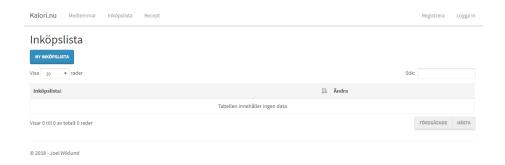

# 6 Översikt Repository/Unit of Work/Unit tests

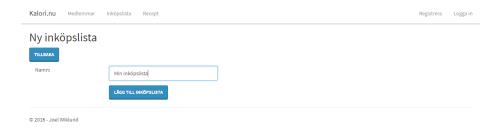

Figur 8: Tack vare Repositories och Unit Of Work går det lätt att enhetstesta Controllers

## 7 Användargränssnitt

## 7.1 Inköpslista

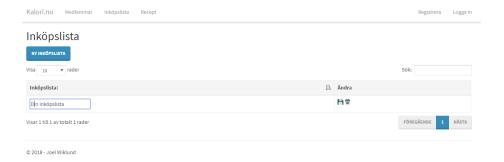

Figur 9: Få en tabell över alla inköpslistor

Figur 10: Lägg till ny inköpslista "Min inköpslista"

Figur 11: Se "Min inköpslista" i tabellen

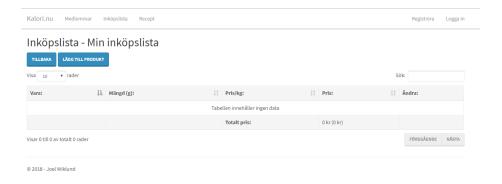

Figur 12: Ändra namnet "Min inköpslista" till "Din inköpslista"

Figur 13: Se "Din inköpslista" i tabellen

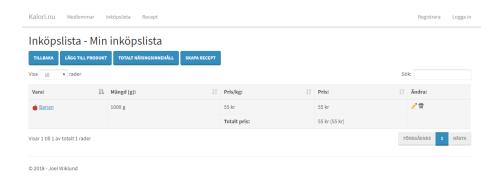

Figur 14: Tag bort "Din inköpslista"

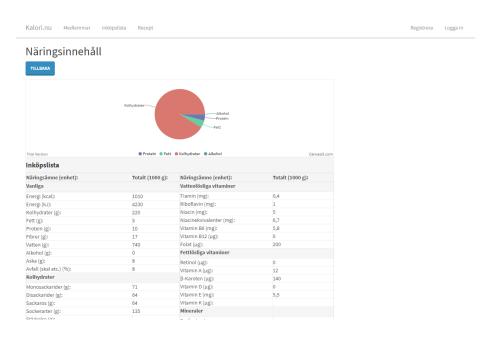

Figur 15: Se alla produkter till "Min inköpslista"

Figur 16: Lägg till en produkt

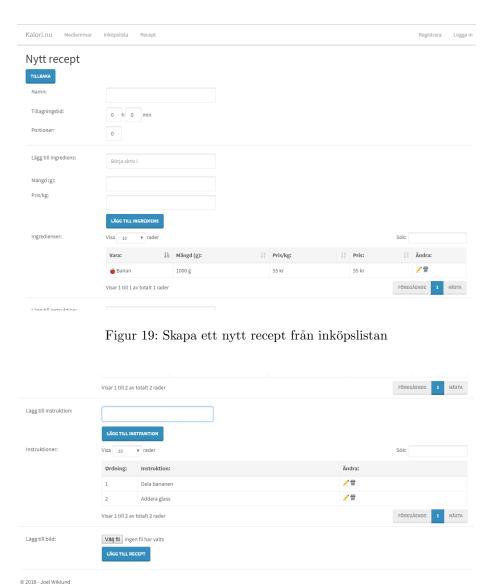

Figur 17: Se produkten i tabellen för "Min inköpslista"

Figur 18: Se totalt näringsinnehåll för "Min inköpslista"

## 7.2 Recept

Figur 20: Lägg till instruktioner

Figur 21: Se en tabell över alla recept

Figur 22: Se receptet i detalj
